

Amendments to the Drawings:

The attached sheet(s) of drawings includes changes to Fig. 2. This sheet, which includes Fig. 2, replaces the original sheet(s) including Fig. 2.

Attachment: Replacement Sheet

Remarks

Claims 1-8 and 17-20 are pending in this application. Claims 1, 3, 5 and 17-18 stand rejected under § 102(b) as being anticipated by U.S. Patent No. 4,889,290, issued to Koffsky et al. (hereinafter "Koffsky"). Claims 2, 6 and 19 stand rejected under § 103(a) as being unpatentable over Koffsky in view of U.S. Patent No. 6,112,504 issued to McGregor et al. (hereinafter "McGregor"). Claims 4 and 20 stand rejected under § 103(a) as being unpatentable over Koffsky in view of U.S. Patent Application Publication No. 2003/0131571 issued to Demarco (hereinafter "Demarco"). Claims 7 and 8 stand rejected under § 103(a) as being unpatentable over Koffsky in view of McGregor and further in view of Demarco.

By this paper, Applicant complies with a requirement of form with respect to the drawings. In particular, the drawings were objected to under 37 C.F.R. 1.84(p)(5) for failure to include reference signals 152, 154 and 194 mentioned in the description. By this amendment, Applicant has amended Fig. 2 of the drawings to show reference signals 152 and 154. Support for the amendment to Fig. 2 may be found, for example, in the Specification at paragraphs 35 and 36. In addition, the Applicant has amended paragraph 39 to correct a minor typographical error wherein element 190 was inadvertently indicated as 194. Accordingly, no new matter has been added and the objection is believed to be obviated.

Conclusion

Applicant has made a genuine effort to respond to the Examiner's drawing objections such that the Application is placed in better form for consideration on appeal. Accordingly, Applicants respectfully request entry of this Amendment. Please charge any additional fees or credit any overpayments as a result of the filing of this paper to Deposit Account No. 06-1510 .

Respectfully submitted,

JAMES ANDERSON
